

Car-sharing with Londonliftshare!

Londonliftshare matches you with others wanting to travel in the same direction so you can share the journey and the costs. It allows you to benefit from the convenience of the car, whilst alleviating the associated problems of congestion and pollution.

When can I share a car?

You can share a car for any journey - getting to work, doing the weekly shop, taking the children to school, going to the match at the weekend, travelling to a festival, event or show, getting to or from university, visiting friends or getting to the airport. You can offer lifts if you have spare seats in your car or look for a lift if you don't have a car.

What are the benefits of sharing a car?

- Saves you money - sharing a daily commute saves many members over £1000 a year.
- Reduces the number of cars on the roads - resulting in less congestion, less pollution and fewer parking problems
- Provides a real solution to the transport problems of rural areas
- Gives employees and employers more transport options
- Reduces the need for a private car

How will Londonliftshare help me?

Having joined the scheme you simply register your journey and the system automatically lists all potential Londonliftshare matches. The matches are displayed in both table and map format, allowing the you to easily find the most suitable people.

Having found a match you simply send an automated email to any likely matches and arrange to travel together. The system also calculates the financial and CO2 saving you are likely to make on each journey compared to making that journey alone in the car.

The map displays a network of roads with numerous colored icons (red, green, blue) representing potential matches or routes. The icons are scattered across the map, indicating the locations of users or vehicles available for sharing. The map includes labels for various locations and roads, such as 'New Addington', 'Epsom', 'Cobham', 'Old Windsor', and 'Windsor'.
